

Single route

- 1 Drive to the start point by turning right out of the hotel onto the main road.
- 2 Follow the road through Pooley Bridge, once on the far side of Pooley Bridge, take the second exit at the mini roundabout.
- 3 Continue straight at the crossroads and keep driving until you reach a gate. Park on the unmarked road just before the gate ensuring you do not block any of the entrances. This is the start of the walk.
- 4 On foot, pass through the gate following the gravel track until after 1 km you reach a white stone path on your right. Follow this path crossing Elder Beck and arriving at 'The Cockpit' which is a stone circle.
- 5 Take the right hand path heading west for 1 km. Just after you cross Aik Beck, there will be a signpost for the path you are on, indicating Howtown 4 km and Pooley Bridge 3.2 km.
- 6 You need to leave this path at this point, taking a left (south west) at the signpost.
- 7 Follow the track, now steadily ascending, and aim towards the cairns until you reach the highest point – Arthur's Pike.
- 8 When you're ready to return, take the same route back, bearing north-east until you find the gravel track.

Arthur's Pike

Moderate | 8.8 km | 2 hours

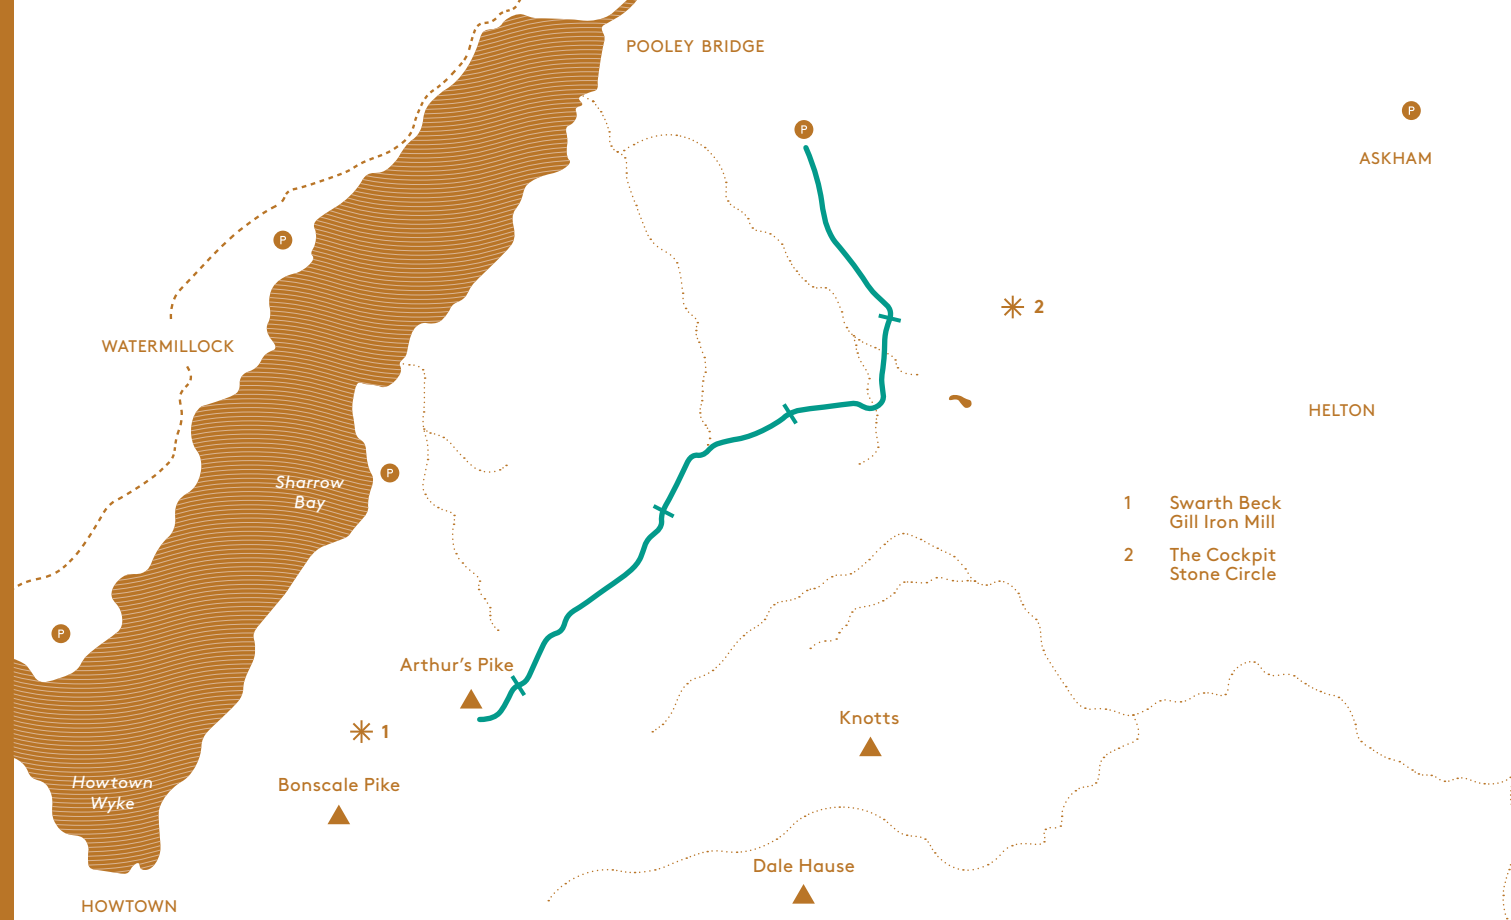

ANOTHER PLACE

Walking in the Lake District comes with risk and conditions change quickly. We would always recommend checking the weather forecast, wearing suitable clothes and choosing a walk for your ability. We would also recommend taking an OS map and compass and know how to use them. The hotel takes no responsibility for any injury, loss or damages that may occur when following the directions.

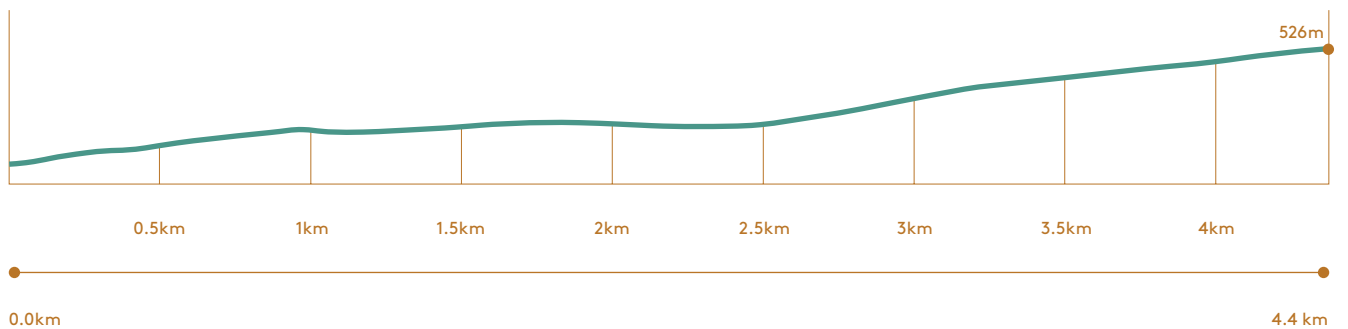

MODERATE

Arthur's Pike is positioned at the north end of the High Street range. There are good views of the fells and Ullswater. The route is a well marked track with steep sections and two stream crossings.

We recommend taking an OS map and compass.
